## An Action Plan for Successful Aging

Aging in Place is the ability to live in one's own home and community safely, independently, and comfortably regardless of age, income, or ability level."

Source: CDC

Successful aging extends beyond physical health; incorporating cognitive function, social support, and satisfying life experiences.

**Proactive**  
vs.  
**Reactive**

### Maintaining Independence While Being Pro-Active

No one looks forward to an unexpected personal or medical situation that catches you off guard; which can be costly, time consuming, complex, and overwhelming.

The time to plan for your aging is now, while you are still healthy, active and able to make decisions on your own.

A personalized "Successful Action Plan", can help prevent unexpected events from turning into a crisis, which have the potential to negatively impact on your health, safety, independence, and quality of life.

June 2016

**Don't Become a  
Statistic**

Are you one of the 78% of Americans who are unprepared should a medical emergency strike?

According to the File of Life.org

- 116 million Americans are involved in an accident each year
- 50% of people suffer with chronic illnesses such as high blood pressure, diabetes or asthma
- 58% of all 911 calls involve a senior

Resource Center**

## Planning Now For Your Future

One thing we can all be sure of is we're aging, and with aging comes challenges.

- Not all problems occur as a crisis, but evolve in a series of warning signs spanning weeks, months, or even years.
- While most seniors are healthy and function at a high level, it's inevitable that as we age, issues will surface related to our independence

## Don't Wait for a Crisis – Plan Now

## Creating a Pro-Active Road Map

Our "Action Plan for Successful Aging" Program helps evaluate your current life situation, and creates a road map that addresses your current needs, while preparing you for potential future challenges.

Our strategies focus on health and mental health, case management and advocacy, home safety, transportation, and advance care planning to name a few.
